

What are your washing facilities like?

Last revised Tuesday, 21 October 2008

There are three shower cubicles in both the ladies and gent's sides of the loo block, with electric, high power, showers. The cubicles have hooks for hanging your clothes up and mats for standing on. There are four loos, four hand basins, and hand dryers for both girls and boys. Both the ladies and gents have hair dryers (20p in slot) and there is a plug for you to use your own hair dryer in the ladies side. There are shaver points above the mirrors in the gent's side and four urinals.

All the water for washing, showering and doing the dishes is free.
