

## I didn't receive my Account Activation Email

Last revised Tuesday, 27 January 2009

---

If you have registered on this site, during registration you will be asked for your email address - this MUST be a valid address. Our system will then send an email containing a link to activate your account, and it will send it to the address you entered during registration.

Normally you should receive the link within a few seconds, and clicking the link will automatically activate your Fforest Fields account for you. You will then be able to log in to our site using the username and password you set up during registration.

However, if you do NOT receive the activation email...

Nine times out of ten this is due to spam or junk filters on your email account.

To avoid our emails getting trapped in spam/junk filters please add [office@fforestfields.co.uk](mailto:office@fforestfields.co.uk) to your "white-list" or "allowed senders" list. This will ensure that our emails can reach you.

If you still have problems please [contact our webmaster using the form available in the Contacts section](#)
